

Your chosen cell:

Nerve Cell

If you choose to upload a video file to Teams, try to keep recordings to less than 4 minutes.

1. Create a model of the neuron cell using sweets.
2. Research on the internet for ideas of the details of a neuron cell and how it functions.
3. Find sweets similar in structure to the different parts.
4. Haribo Balla Stixx laces look like the axon, thick and long.
5. Pick N Mix egg resembles the nucleus.
6. Marshmallows are similar to the cell body.
7. Strawberry laces can be the dendrites as they are long and thin and red.
8. The Myelin sheath, I shall use Cola Wands as they are short and thick.
9. For the Axon Terminal, I will use Rainbow laces because they are long and thin.
4. Use different colours sweets to show different parts.

Plan

Write an instruction text in Word or Power point or record an audio, or use your phones to record a video file describing and outlining how you plan to go about creating your model.
