3. In this question, you will be assessed on the quality of your organisation, communication and accuracy in writing.

Aled plans a Christmas party.

He decides to use a company called *Table Toppers* to supply tables, chairs and catering.

The circular tables each seat 6 people and the rectangular tables each seat 10 people.

*Table Toppers* charge as shown below.

| <i>Table Toppers</i> |                    |                |
|----------------------|--------------------|----------------|
| Hiring Fees          | Circular tables    | £3 each        |
|                      | Rectangular tables | £4 each        |
|                      | Chairs             | £2 each        |
| Catering             | Buffet             | £9 per person  |
|                      | Hog Roast          | £12 per person |

All the people invited to the party will fit around 3 circular tables and 2 rectangular tables. There will be no spare seats.

Aled hires 3 circular tables, 2 rectangular tables, and a chair for each person at the party. He decides to provide a buffet meal for each person.

How much does *Table Toppers* charge Aled in total?  
You must show all your working.

[4]

4. Mrs Henry works part time in a factory.  
The amount of time for each day that she worked last week is shown in the table.

| Day       | Hours worked   |
|-----------|----------------|
| Tuesday   | $3\frac{1}{2}$ |
| Wednesday | 4              |
| Thursday  | $4\frac{1}{2}$ |
| Friday    | 5              |
| Saturday  | 3              |

Mrs Henry's pay is calculated using the following:

- Tuesday to Friday:
- £8 per hour for the first 15 hours
  - £9 per hour for any extra hours
- Saturday:
- double the usual rate of £8 per hour

- (a) *In this part of the question, you will be assessed on the quality of your organisation, communication and accuracy in writing.*

Work out Mrs Henry's total pay for last week.  
You must show all your working.

12. Grace sees a newspaper advertisement for *Blake's Mopeds*.

**Blake's Mopeds**

Best deal!  
Valid if you show this advertisement.

Moped £400

Helmet should be  
£80, we offer 15%  
off this price

Other costs payable are

- insurance £151.20,
- and
- vehicle tax £37.

Grace is planning to save for this offer.  
She also wants to save enough money for the first month's fuel.

The moped travels 20 miles on each litre of fuel.  
A litre of fuel costs £1.26.  
Grace estimates she will travel approximately 350 miles each month on her moped.

Starting this month, Grace will be able to save £60 per month.

After how many **complete** months will Grace have saved enough money for this offer, including the first month's fuel?

You must show all your working.

10. (a)

Railcard for 16 to 25 year olds  
£30 for a year  
Get  $\frac{1}{3}$  off all your rail travel

Nerys and Eleri are sisters.  
Nerys is 22 years old and Eleri is 27 years old.

The two sisters live in Holyhead.  
Their aunt lives in Milford Haven.  
They travel by train to visit their aunt 3 times a year.

Nerys buys a 16-25 Railcard to use for these journeys.  
They buy single rail tickets for each journey.  
The cost of a **single** rail ticket from Holyhead to Milford Haven is £84.50.  
The journey home from Milford Haven also costs £84.50 per ticket.

In a year, how much less does Nerys pay than Eleri for the journeys to Milford Haven and back?  
You must show all your working. [5]

- (b) Cristiano is 22 years old.  
He sometimes travels from Rhyl to Llandudno Junction by train.  
The cost of a single rail ticket from Rhyl to Llandudno Junction is £7.80.

Nerys advises Cristiano to buy a Railcard.  
Cristiano says,

It is not worth paying £30 for the Railcard.

How many times in a year would Cristiano have to travel to make it cheaper for him if he buys a Railcard? [3]
